caring for your furniture

WOOD

- Avoid prolonged exposure to direct sunlight.
- Wipe up spills immediately.
- Direct contact with petrochemical products, (nail polish remover, alcohol, etc.) will damage the finish. Wipe up any spills or dampness on your furniture immediately. Use a clean cloth and wipe with the grain of the wood. First, wipe with a soft cloth dipped in a mild soap and water solution and wrung out; wipe again with a second clean cloth; then dry thoroughly with a third cloth.
- Rubber lamp bases, lamp cords and some types of plastic materials may soften and injure the finish if left in direct contact with the furniture for an extended period of time. To avoid this, place a piece of felt or leather under these materials where they contact the furniture.

UPHOLSTERY

- Maintain the frames of your natural fiber furniture by dusting or vacuuming.
- Caracole highly recommends having your upholstery professionally cleaned. All other methods of cleaning could void the manufacturer's warranty.

NOTE

- Because of the natural materials used in the manufacturing process, and the fact that the product is generally handmade, minor variations will occur from piece to piece.
- All furniture is produced to Compositions design and material specifications and crafted to meet the highest quality standards.
- Caracole reserves the right to modify the product from its original form shown on showroom floors or in catalogs.
