The thrill that comes with buying furniture is something everyone experiences at least once in a lifetime. Room renovations, moving in to a new house, or even just wanting to reinvent your home aesthetic—having that change from something you were so accustomed to can both be exhilarating and terrifying at the same time. But with the excitement comes the stress and effort of going from one furniture store to another, hunting down complementing pieces and designs for every room.

Furniture shopping can be a lot of work. Often times, the fun and creative process of choosing your furniture gets overshadowed by the amount of stress and overthinking people put into it. With establishments like Caracole popping out around the metro, our furniture shopping dilemmas are put to ease.

Further expanding their retail presence, Dexterton has opened its first Caracole flagship store and third branch in the country. Serving high-style furniture with unique personality offered at an exceptional value, Caracole takes our home in a beautiful new direction. The brand stands by its individual pieces rather than a collection, disregarding the notion that a particular piece must reside in a specific room. With pieces such as night stands, leather chairs, headboards among others, every furniture is infinitely adaptable.

Caracole is located at Bonifacio Global City, Quezon City, and its new flagship store at Greenbelt 5. Dexterton is Caracole's exclusive distributor in the Philippines. Visit their website at [www.caracole.ph](http://www.caracole.ph) or e-mail [info@caracole.ph](mailto:info@caracole.ph) for inquiries. You may also follow their Facebook @caracolephilippines and Instagram @caracoleph.
